

Speaker

Shailendra Nath Pandey
Programme Director
Development Alternatives

Dr. Pandey has worked extensively in the areas of Natural resource management (especially integrated water resource management), building & strengthening community institutions and livelihood generation program, for rural development. He is also been instrumental in setting up the TARAGram Pahuj centre which showcases some of the water use efficient agricultural practices. He has been closely working with the community and his expertise includes diverse experience in operations, project formulation and management, planning, coordination & resource mobilization, monitoring and evaluation of projects in developmental sector.

He has a proven ability in developing strategic alliances with Government as well as grassroots level organization & acting as a catalyst for capacity enhancement of their ability to respond to developmental challenges & poverty alleviation. He is a recipient of ICAR Junior Research Fellowship in the subject of Agricultural Extension.
